## **About This Game**

Important: Although Preta is marked to require a virtual reality headset, it supports gameplay in both traditional and non-VR and VR systems. To enable non-VR gameplay, simply launch the game without a VR headset connected to your PC and close the SteamVR app. However, for a better gaming experience, we definitely recommend Preta to be played in VR. Furthermore, Preta recommends a gamepad for optimal gameplay, but also supports the Oculus Touch and HTC Vive controllers in VR mode.

flesh-craving beasts called Pretas\*. Survivors are now organizing into militias to defend their home, but due to the lack of capable warriors, Akirots are desperately hiring mercenaries, someone like you. Explore the forsaken continents, collect materials, craft powerful weapons and defeat blood-thirsty pretas in order to save Akirion and reveal the dark truths of the plague's origin. Inspired by video games such as Dark Souls, Diablo, and Monster Hunters, Preta: Vendetta Rising is designed to be a challenging hack-and-slash action game featuring various multiplayer gameplay!

\*Preta is the Sanskrit name for supernatural beings that suffered greatly before death and now have turned into flesh-craving monsters.

Alright so ive put in over 5 hours on this game and i do have to say i like it not bad kinda grindie but what isnt now a days. i do not play in VR as i do not own one and i do not see any reason why you would have to play this in vr other then the VR experience. the one thing i do wish they would change is the camera it doesnt flow around it jumps and that bugs probly better in vr but im getting used to it. all in all good game kinda pricey but i feel like this game can go places

so now im about 20 hours in and every1 says u have to pay to win no its just grindie like i said be4. yes i do agree that since the game is \$30 there shouldnt be as much pay for things so hopefully they see that people really want to play this game and tone back on the pay for stuff.. I'v done my share of gaming, but I still class myself as a novice.

This is only a few of my opinions on the game.

The Graphics (VR) and game play is pretty dam cool.

BUT, it takes more than that to be a good and popular game ppl will play for an extended time, and not just demo it and toss it.

I think this game has potential (After a lot of fixes - which the devs appear to be doing)

VERY overpriced atm.

Includes free \$90 worth of stuff??

If thats \$90 worth, holy\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665

ATM I do not recommend this game, there are grinding games and there are GRINDING games, this is a GGRRIINNDDIINNGG game, without a lot of areas to choose from to grind.

Without co-op\/group it gets boring quickly.

Some of the mats are set to hard to get.

eg: Complete areas in a certain time to get a certain mat, with co-op (which I dont think is working atm) I guess is ok, but solo runs a big nope.

There are a lot of basic things that need changing.

like just refreshing mats (show different mats) cost gold, then you still have to buy them?? WTF

Leveling is too slow, definately needs speeding up.

IMO it looks like they are setting this game up so you have to spend money to get anywhere.

If a game is setup to buy ingame items with real money that you HAVE to have to get anywhere, the game should be free to play - so atm this game goes in my RIPOFF list.

If I had under 2 hours on this game I would be getting a refund.

I'll probably update this in the future once the devs have sorted a few things.. This game can give a lot of hours of playtime. The controls work good with the touch controllers.

Seems grindy.. Its about 130am. I was about to go to sleep and Preta has finaly come.

## Short Preview!

the video demonstrated for the game is nowhere in visual quality of this early access game. Character, sound, animation, effects are very very good. I used a xbox one controller. I played for the first 30 minutes, it appears this game will have depths as after the tutorial, I was placed in a town where I can enhance various aspects of my character. This is indeed something special.. Can't recommend this game at this time until some type of guide for crafting and skills are provided because the game has no in game tutorial to explain anything. This was promised by the dev weeks ago but nothing yet.. Early review (will update with more time in game)

I decided to give this one a try and I'm really happy I did. I was initially going to try it out and most probably refund but I'm going to keep it.

Felt like Diablo 3 VR!

There is something really special about having a little action figure run around in atmospheric environments.

So far I'm pleasantly suprised with how much I like this game!. Grindy but great! If you love grind like me this is a must buy.

i like it starts off slow cant craft stuff for a long time but it hard and you need to dogde good game over all. Well, I am changing my review from positive to a total negative. My reason is based simply on the fact that items were suppose to be included with the purchase of the game. The items never showed up in game. I have contacted the developer several times and there has been no resolution to what has happened. I think if you are gonna sell a product to a consumer then stand behind your product. I gave them the benefit of the doubt that they would help and I have received no help. DO NOT purchase this game until the dev actually gets their act together.. i like it starts off slow cant craft stuff for a long time but it hard and you need to dogde good game over all. First and foremost it's a good game if you can bear with it the more you play it the better it gets. And as everyone else said it's definitely definitely grind heavy. With that being said at \$10 you will get your money's-worth 5 x fold. If you in the mood for conventional gaming that vR enhances definitely get this game.. The game looks good with really nice graphics and good combat system. I don't mind the grind but you do have to play a mission more than 2 to 3 times to get an item you need for a certain recipie but other than that is good fun.
